

## **UGAM INTERVIEW EXPERIENCE**

**DHANASHRI DEVALAPURKAR**

### **ROUNDS AT UGAM:**

1. Aptitude
2. GD
3. Technical Interview
4. HR Interview

### **ROUND 1 (APTITUDE)**

- The first round lasts 45 minutes and consists of about 40 questions on various topics, including verbal ability, quantitative thinking, and data interpretation.
- The aptitude test is divided into two sections.
- The first section of the exam consists of 30 questions on verbal, quantitative, and logical reasoning; the second section, on data interpretation, has the final 10 questions.

### **ROUND 2 (GROUP DISCUSSION)**

- Will be carried out in a team of 8-10 people.
- The topic could be Technical or Non-Technical.
- You will have five minutes to prepare (write the keywords and points on a notepad).
- Try to open the GD. Do not be disheartened if you cannot as someone else got the chance, but if you do, it is a big plus point.
- Be polite. Use simple language to convey your thoughts. Do not be dominating. If you do not agree with someone's argument, put your point forward in a calm and respectful manner.
- Your GD score, which is later factored into your technical interview, will be determined based on how well you perform.
- Including instances, circumstances, or quotes increases their impact.

My topic was "Ethics in Business".

### **ROUND 3 (TECHNICAL ROUND)**

- Describe your history in education, your talents, your hobbies, and a quick summary of your projects in your introduction.
- Questions asked:
  - ❖ I was asked to give a very detailed explanation of my projects (Mentioned about how I came up with an idea to do that particular project).
  - ❖ I was asked to explain real time examples on Machine learning.
  - ❖ Difference between Machine learning and Deep Learning with real-time examples.
  - ❖ Two questions on SQL (Basic definition: Normalization, table, types and importance) and 2 SQL queries.
  - ❖ Several Python-related questions, including one requiring the creation of a piece of code.
- The interviewer mainly focused on projects, SQL and python.
- The round lasted for 30mins or so.
- The interviewer asked me if I had any questions about the company after the interview

### **ROUND 4(HR ROUND)**

- Questions asked:
  - ❖ Tell me about yourself?
  - ❖ Family background, Interests, Relocation options.
  - ❖ Where do you see yourself in the next 5 years?
  - ❖ Why do you want to work as a Data Analyst?
  - ❖ Why do you want to work for our company?
  - ❖ Job Role.

### **KEYPOINTS TO REMEMBER:**

- ✓ Be flawless in whatever you include in your resume.
- ✓ The advantage of adding projects in machine learning or deep learning.
- ✓ Work on complex queries.
- ✓ Master one programming language to a fault (Python language adds advantage).
- ✓ Be Patient, Stay Motivated.
